

LAWYER – TECHNOLOGY, DATA & IP

LOCATION(S)

AUSTRALIA: Brisbane, QLD

ABOUT OUR COMPANY

Stanbury & Co. is a research, advisory, implementation and operational private equity house. Our project experience includes more than \$1 billion of projects at various development stages.

Our client portfolio includes renowned entities in the Fortune 500, Forbes Global 2000, Private Equity Funds, Leading Private Companies and Trade Organizations.

In addition, Stanbury Labs, an affiliate of Stanbury & Co., is involved in the development of technology solutions powering various proprietary and client infrastructure, e-commerce, B2B and B2C enterprises and organizations operating globally across various industry verticals.

JOB DESCRIPTION

You will be part of a global team made up of technical, business and operational experts playing an active role in all aspects of the client engagement, both internal and external.

In this role, you will lead the legal scope in relation to technology, data and intellectual property consulting and implementation projects.

You will be accountable for managing the relationships with Client and external legal teams. Client service of the highest level is expected.

ESSENTIAL RESPONSIBILITIES

In this role, you will:

- Provide fully integrated strategic and transactional advice in relation to a range of multi-industry transactions – providing our clients with legal advice that runs alongside and integrated with the firm’s advisory teams
- Provide intellectual property structuring and commercialization advice – providing our clients with commercial and pragmatic advice on how to manage their critical IP assets and also engage in implementation efforts in partnership with client teams
- Support our clients with managing their data, privacy issues (including GDPR) and data breaches

- Provide legal input into consulting projects – inputting into joint venture, transformation or other operational change projects, alongside our management consulting teams
- Engage in implementation efforts alongside client teams to realize required outcomes

REQUIREMENTS

- Australian/US/UK-qualified lawyer with a minimum 3 years' PQE experience, several years of which should have been gained at a reputable firm (applicants with other suitable experience will also be considered).
- Strong academic, technical, drafting and personal skills are important.
- Proficiency in English, both spoken and written in a professional environment
- Ability to work with global teams in different time zones and of different cultures
- Willingness to travel regionally and internationally
- Experience in the commodities and technology verticals including mining, oil and gas, manufacturing, automotive and aviation is a big plus.

WHAT WE ARE LOOKING FOR IN OUR TEAM MEMBERS

- Adaptable, self-starting personalities who are keen to work outside the 'traditional' law firm model in a new, developing area of the legal sector
- Great teammates who enjoy collaborating with people from diverse backgrounds and disciplines
- Approachable people who are keen to develop personally and professionally, and to assist with the development of junior team members
- Technical excellence and an interest in practicing across all aspects of technology, IP and data
- Intellectually curious, open-minded and analytical people, with an eye for detail and pride in their work
- Committed and enthusiastic professionals who deliver a great service to their clients
- Relationship builders who can spot and develop new opportunities both within the Stanbury network and externally
- Flexible people who are able to deal with a fluid, changing work environment

WORKING CONDITIONS

- This role will be on a full time basis
- Compensation commensurate with experience
- Flexible working arrangement
- Global exposure working both in a start-up environment and also, supporting global clients inclusive of Fortune 500 companies, leading Private equity Companies and Trade Organizations
- Much more
