

PRIVATE EQUITY INVESTMENT ANALYST - INTERN

LOCATION

AUSTRALIA: Brisbane
MALAYSIA: Kuala Lumpur

ABOUT OUR COMPANY

Stanbury & Co. is a research, advisory, implementation and operational private equity house. Our project experience includes more than \$1 billion of projects at various development stages.

Our client portfolio includes renowned entities in the Fortune 500, Forbes Global 2000, Private Equity Funds, Leading Private Companies and Trade Organizations.

In addition, Stanbury Labs, an affiliate of Stanbury & Co., is involved in the development of technology solutions powering various proprietary and client infrastructure, e-commerce, B2B and B2C enterprises and organizations operating globally across various industry verticals.

JOB DESCRIPTION

Stanbury & Co. is seeking a Private Equity Analyst - Intern to be based in Kuala Lumpur, Malaysia.

In this role, you will be accountable for developing financial and operational analyses and models (including, cash flow, business case, IRR, investment and return payback curves, and financial ratios) to present conclusions/recommendations for deal flow and assist with implementation efforts.

This is an excellent opportunity to develop Private Equity analytics and due diligence experience:

- Conducting analytical evaluation, valuation and due diligence of private equity investment opportunities across multiple industries
- Perform extensive analysis of a company's financials, market position and competitive landscape
- Create detailed financial models, investment analyses, and valuation models to support the justification of investments / acquisitions
- Support firm activity in new business, developing Intellectual Property, and other internal initiatives
- Provide project execution support which often includes developing deal deliverables and key milestone follow up to ensure timely project execution
- Participation in deal flow pitches to partner Private Equity Funds and Family Offices

You will gain new skills and build on the strengths you bring to the Company. Private Equity Business Analysts receive exceptional training as well as frequent coaching and mentoring from colleagues on their teams. This support includes senior level Operations and Technical Directors.

REQUIREMENTS

- Undergraduate level degree in engineering and a Masters level degree in Finance, Business or related field.
- Minimum of 1 year of financial analysis experience in investment banking, management consulting, private equity or corporate finance; significant transaction experience is a plus.
- Minimum of 5 years industrial experience in key infrastructure, supply chain and operational environments preferably with large multi-national companies.
- Knowledge of accounting principles and corporate finance is a plus
- Strong analytical skills; comfort with manipulating large financial data sets to drive analysis
- Financial modeling and valuation experience; ability to deconstruct a company's financials and analyze / forecast a company's operations
- Ability to demonstrate structured thought process, strategic thinking and creativity
- Proficiency with Microsoft Office, specifically Excel, PowerPoint and Word is required; knowledge of FactSet and Capital IQ is a plus
- Prior experience in or knowledge of financial technology and / or services, industrial verticals exposure is helpful
- Proven success in contributing to a team-oriented environment
- Proven ability to work creatively and analytically in a problem-solving environment
- Excellent communication (written and oral) and interpersonal skills required
- Commitment to gaining exposure to multiple industries
- Exceptional analytical and quantitative problem-solving skills
- Ability to work effectively with people at all levels in an organization
- Ability to communicate complex ideas effectively – both verbally and in writing
- Have strong visual skills including pitch deck development
- Ability to prioritize and manage work to adhere to critical project timelines in a fast-paced ambiguous environment
- Proficiency in English, both spoken and written in a professional environment
- Ability to work with global teams in different time zones and of different cultures
